

We're moving in 2015!

The Montreal General Hospital will be integrating several services from the Royal Victoria Hospital in 2015. Our number one focus while integrating these exciting changes to the MUHC is that you and your family will continue to receive the best in quality care from our exceptional team of medical experts and personnel across all of our healthcare sites. For the most part, your health care team will remain the same. Rest assured, though the patient experience is evolving, the quality of care provided at the MUHC and across the network remains the same.
