How to manage "Messages" in Nagano

The Messages tab available on the Nagano home page refers to discussions that users have access to.

مسید NAGAN	^ ━ ば 兽 ⊵ ⑳ ሥ ₶ ?	Research
	CALENDAR ACTIVITIES	

There are two types of discussions:

- Discussions between users (see grey marking on left hand side of discussion);
- Discussions regarding **projects** (see blue marking on left hand side of discussion).

To start a new discussion :

- 1. Click on NEW button, on top right;
- 2. In the « Send to » box, choose « **User** » : you may then choose the user with whom you wish to start a discussion;

OR

Choose « Project »: you may then choose the project and the subject of the discussion;

- 3. You may attach one or more files to the discussion by clicking on (Actions : Add file
- 4. Click on create to start the discussion.

In the left column, where all discussions are displayed, a **red triangle** will appear under the date of unread discussions (see example on left hand side).

- To keep a record of a discussion, you may create a PDF document.
- To remove a discussion from view, you may close the discussion. If necessary, the discussion may be **reactivated** later.

To **search through discussions**, three filters are available on top left : 1) openned or closed discussions; 2) discussions from last month or anytime; 3) discussions regarding users or projects.
